

# BUILD YOUR OWN STORM

Super Storms: Why Are They Getting Stronger?

## STEP 1:

Fill a clear jar halfway with water. Add a few drops of blue food coloring for the "ocean."

## STEP 2:

Stir the water gently with a spoon to make a whirlpool.

## STEP 3:

Drop tiny pieces of paper or glitter into the water to mimic storm debris.

## STEP 4:

Spin faster to make a "super storm!"
